Local Infrastructure Strengthening

Since its creation in 2010, The KANPE Foundation, with its Haitian partners, supports families and their communities by strengthening the essential pillars for autonomy: health and nutrition, agriculture, education, entrepreneurship, leadership, and local infrastructure strengthening.

By investing effectively and sustainably in local infrastructures, KANPE improves the living conditions of the population of the community of Baille Tourible, in Haiti's Central Plateau. Strengthening these local buildings increases the reach of programs in health & nutrition, leadership, agriculture, education and

Renovation of the cholera treatment unit of the clinic – essential to continue the treatments in this community.
