

Education

The KANPE Foundation (to « stand up » in Haitian Creole), in collaboration with its local Haitian partners, supports the most vulnerable communities to achieve autonomy by helping to strengthen the following six pillars: health and nutrition, food sovereignty and climate resilience, education, entrepreneurship, leadership, and local infrastructure strengthening.

At the KANPE Foundation, we believe that a solid education will help prevent younger generations from falling into extreme poverty as adults. This is why we support various educational projects in the community of Baille Tourible in the Central Plateau of Haiti.

Since 2017, with its local Haitian partner, Summits Education (a Haitian organization with 20 years of experience in the Central Department), KANPE has been working to ensure a conducive learning environment for more than 450 students at the Baille Tourible public elementary school.

Achievements of The KANPE Foundation since its creation in 2010

Management

- **Support to the management** of the public elementary school, allowing :
 - the preparation and distribution of hot meals to 450 students;
 - the continuous training of the teachers;
 - maintenance of the building.

Learning

- **Purchase and distribution of school supplies** and textbooks for the first 9 years of school.
- **Recovery and redistribution of used books** at the beginning of the school year.
- **Teaching concepts and integrating activities related to agriculture** and livestock into the high school curriculum (since 2016).

COVID-19

- **Information sessions** on the pandemic and its prevention methods.
- **Distribution of 57 radios and 464 books** for remote reading programs during the lockdown period in Haiti.
