

Entrepreneurship

The KANPE Foundation (to « stand up » in Haitian Creole), in collaboration with its local Haitian partners, supports the most vulnerable communities to achieve autonomy by helping to strengthen the following six pillars: health and nutrition, food sovereignty and climate resilience, education, entrepreneurship, leadership, and local infrastructure strengthening.

Entrepreneurship creates wealth, diversifies sources of income, and develops new skills while strengthening autonomy.

By supporting the development of entrepreneurship, KANPE enables families in the community of Baille Tourible (in the Central Plateau, Haiti) to be better equipped to achieve financial autonomy.

Achievements of The KANPE Foundation since its creation in 2010

- **Accompaniment of 550 women-heads of household** towards financial autonomy through the creation of micro-enterprises (until 2017).
- **Training in associative life for three women's associations** and the association of young leaders: basic accounting, organizational strengthening, and good governance.
- **Creation of the Baille Tourible marching band and income-generating activities** of the group through contracts for parties in the region, and livestock husbandry (since 2014).

COVID-19

- **Training of 50 leaders** to accompany the beneficiaries of our subsistence garden program.
