

## 2021 Results

KANPE, which means "to stand up" in Haitian Creole, is a foundation that supports Haiti's most vulnerable communities toward autonomy through six pillars: health and nutrition, agroforestry, education, leadership, entrepreneurship, and local infrastructure strengthening. We work with the best local Haitian experts and organizations to help these communities achieve their goals.

KANPE was founded in 2010 by two Canadians, members of the Haitian diaspora: prominent political figure Dominique Anglade and renowned Arcade Fire co-leader Régine Chassagne.

As a foundation, we ensure that the funds raised are well distributed and that the projects are carried out with respect to the needs of the communities, according to strict standards of good governance and transparency. The foundation is registered as a non-profit organization in Canada and the United States.

### In 2021, continuing our mission, here are our results-driven achievements\*:

#### HEALTH AND NUTRITION

Partenaire local haïtien: Zanmi Lasante

Care and prevention services provided daily to 20,000 residents (Baille Tourible and surrounding areas), including:

- Consultations (monthly average of 836).
- Laboratory tests (monthly average of 306).
- Distribution of free medications.
- Treatment of moderate and severe malnutrition (monthly average of 18 children).
- No new cases of cholera since January 2018.
- Prenatal consultations (monthly average of 141 families) and childbirth.
- Family planning services (monthly average of 70 people).
- Training offered to the adult population and adolescents in the areas of sexuality, reproductive health, personal hygiene, environmental health, pediatrics, and STD/HIV prevention.
- Awareness campaign and distribution of 1,907 sanitary kits (soap and chlorine) to prevent COVID-19.

- Distribution of masks to students in grades 1-9.
- Distribution of intestinal worm medication to 450 students.
- Transportation service for patients, medical team members, and medications.
- Hiring of 6 new staff members. 29 jobs maintained at the clinic, including: a general practitioner, nursing assistants, pharmacy assistants, social worker, primary care nurses, medical technologists, and a pharmacist.

## EDUCATION

Local Haitian partner: Summits Education

- Support to the management of the public elementary school, allowing :
  - the preparation and distribution of hot meals to 450 students;
  - the continuous training of the teachers;
  - maintenance of the building.
- Success of secondary school students who participated in the Ministry of Education exams.
- 2021 back-to-school: recovery of more than 3,000 books already used and redistribution to students.
- Development of a curriculum, teaching and practical sessions on agriculture and livestock for students in grades 5-9.
- Information sessions on the COVID-19 pandemic and its prevention methods.

## AGROFORESTRY

Local Haitian partner: Mouvement Paysan Papaye

- Production of more than 25,000 seedlings including 13,483 fruit trees and 11,517 forest trees at the experimental farm (2020-2021).
- Training for members of 7 local beneficiary associations on seedling production and maintenance techniques, the establishment of planting beds and the production of natural insecticides.
- Distribution of 23,685 kg of bean seeds to 200 farmers and 575 of the most vulnerable families.
- Production of 2 annual harvests of beans of which 27,908 kg were reimbursed to the seed bank.
- Expanded the seed distribution program with the addition of corn (2,373 kg), petit millet (1,225 kg) and pois-congo (1,148 kg).
- Establishment of 16 mini orchards of fruit and forest trees to increase vegetation cover and sources of income.
- Recruitment of 2 reforestation agents (1 woman and 1 man) to support the activities at the experimental farm.

## LEADERSHIP AND ENTREPRENEURSHIP

- Steps for the registration of the Association of Young Leaders of Baille Tourible (AJLBT) composed of the doctor in charge of the clinic, 2 nursing assistants, pharmacist assistant, 3 teachers.
- Continued support to the ODB Farmers Association.
- Logistical and financial support for the organization of cultural activities.
- Participation of approximately 80 high school and band students in the production and maintenance of seedlings produced at the experimental farm.
- Summer camp at home for 45 young people from the community.
- Distribution of 45 goats to summer camp participants.
- Cleaning and beautification activities of the clinic by local women's associations.
- Training on community life for 15 women leaders, members of three local women's associations.
- Training in nutrition for 120 women members of 3 local women's associations.

## INFRASTRUCTURE STRENGTHENING

- Rehabilitation of the road leading to Baille Tourible to counter isolation.
- Construction of a soil protection wall for seedlings at the experimental farm.
- Construction of sanitary facilities for girls and boys attending the public primary and secondary school.
- Renovation of a local church to house 3 secondary school classrooms (grades 7, 8 and 9) and a director's office.
- Fabrication of 30 benches, 4 cabinets, 3 blackboards, 4 tables, and 4 teacher chairs for the secondary school.
- Repairs to the oven in the school canteen kitchen.
